

Hair Loss & Hair Restoration

Don't let thinning hair hold you back! A non-surgical solution for reversing hair loss is now available for both men and women. No scars, no downtime, no side effects.

Increase hair count, improve thickness and density with our state of the art technology.

Two treatment options to choose from:

Option A:

- Combining **PRP** (Platelet Rich Plasma), which contains high concentrations of growth factors, with **Microneedling** and **Healite-II LED Red light** therapy results in better hair count, a higher frequency of negative hair-pull tests, and improved results.

Option B:

- Combining **KeraFactor**, a very specific formula that contains five biomimetic growth factors and two skin proteins to support scalp and hair that are typically deficient in skin, during times of hair loss or poor hair health, with **Microneedling** and **Healite-II LED Red light** therapy.

“Bringing harmony and proportion to establish one's beauty and youth...”

I'm Dr. Walid Al-Bermami, the clinical director of Beautiphi Cosmetic Studio. I'll be your Cosmetic Specialist guiding you through this journey in achieving your Aesthetic needs... get in touch now, or follow me on Instagram and let's work together to help you become the best version of yourself!
