

Healite II - LED Light Therapy

Low-Level Light Therapy (LLLT) with **HEALITE II** is the therapeutic use of incident light to photomodulate cellular function, improving healing times, relieving pain, subsiding active acne, promoting skin rejuvenation and more.

HEALITE II harnesses the properties of 830/590 and 633 nm light via Light Emitting Diode (LED) technology, properly delivered and concentrated, treating effectively without possibility of physical trauma or thermal damage.

LLLT with HEALITE II can be used as a standalone therapy or as an adjunctive therapy with many other treatments.

Why LLLT using LEDs?

- Ideal wavelength
- Powerful enough to penetrate deep where it is needed
- Works at subcellular, cellular and tissue level
- Works alone or as an adjunctive therapy
- Treats multiple indications
- Pain-free, non-invasive, treatment of patients all ages

Indications

YELLOW - 830 nm:

- Wound Healing
- Pain Relief
- Muscle and Joint Pain
- Arthritis
- Muscle Spasm
- Hair Regrowth
- Active Acne
- Skin Rejuvenation

RED - 633 nm:

- Skin Rejuvenation
- Hair Regrowth

Benefits

Non-surgical
operation

Lunchtime
treatment
